Get Started

web.py 0.38 is the latest released version of web.py. You can install it by running:

```
pip install web.py
```

Or to get the latest development version from git:

```
git clone git://github.com/webpy/webpy.git
ln -s `pwd`/webpy/web .
```

```
import web

urls = (
    '(.*)', 'hello'
)
app = web.application(urls, globals())

class hello:

    def GET(self, name):
        if not name:
            name = 'World'
        return 'Hello, ' + name + '!'

if __name__ == "__main__":
    app.run()
```

Flask

web development,
one drop at a time

```
$ sudo pip install Flask
```

```
from flask import Flask
app = Flask(__name__)

@app.route('/')
def hello_world():
    return 'Hello World!'

if __name__ == '__main__':
    app.run()
```

React

```
var MyComponent = React.createClass({
  handleClick: function() {
    this.refs.myTextInput.focus();
  },
  render: function() {
    return (
      <div>
        <input type="text" ref="myTextInput" />
        <input type="button" value="Focus the text input" onClick={this.handleClick} />
      </div>
    );
  }
});

ReactDOM.render(
  <MyComponent />,
  document.getElementById('example')
);
```

回收站 我的分享 4个项目

This screenshot shows the KodExplorer file manager interface. The left sidebar contains a tree view of folders: '收藏夹' (Favorites), '我的文档' (My Documents) with sub-folders 'desktop', 'document', 'music', and 'pictures'; and '公共目录' (Public Directory) with sub-folders 'doc', 'pictures', and 'share'. The main panel displays four folder icons labeled 'desktop', 'document', 'music', and 'pictures'. The top navigation bar includes tabs for '桌面' (Desktop), '文件管理' (File Management), and '编辑器' (Editor). The top right corner shows the user 'demo'. The bottom status bar indicates there are 4 items in the current view.
